# Creating a Promethean Planet/ClassFlow Account

Promethean Planet has merged with ClassFlow. If you currently have a Promethean account, all settings/flipcharts will still be available via the ClassFlow site.

With a ClassFlow account, you can search, browse, and download flipcharts that have been saved on the ClassFlow website. Once downloaded, most can be altered to fit your exact needs in the classroom.

1) Go to www.classflow.com.

2) Select "Sign Up for Free".

3) Then select "Sign up as a Teacher" and follow the prompts to create your free account.
